SALE NUMBER 52
CLOSING DATE
April 22-23, 1983

TERMS OF SALE
(Please Read Carefully)

1. BIDS BY MAIL, PHONE OR TELEX will be accepted until the closing date. All phone bids must be confirmed by mail. All lots are sold to the highest bidder. Bids are treated as LIMITS. Bids are reduced where competition permits to within 5% of the second highest bid. In the case of tie bids, the first received is normally given preference. No "buy" or unlimited bids are accepted. Bids are accepted by lot number only. No lots are broken up. Bids are only executed in even dollar amounts.
2. This sale is NOT an approval sale. All material offered is guaranteed genuine and as described. Cataloging errors will be cheerfully and promptly corrected. FLOOR BIDDERS MAY NOT RETURN ANY LOTS. All claims for adjustment by other bidders must be made within five days of receipt but in no case more than 45 days after a sale. After that time, we will have made settlement with our consignors. Lots are not shipped until paid for, therefore, late payment may negate a return privilege.
3. Successful bidders are required to pay the full invoice amount before lots are delivered unless an open account has been established. An open account is a privilege and not a right. First rate credit references or a 25% deposit are necessary to assure entry of your bids. Any portion of such a deposit not used will be promptly refunded after the sale.
4. All auction lots will have a buyer's fee of 10% added which is waived on invoices paid within 30 days of the sale closing date. Floor bidder accounts must be settled on the day of the sale to obtain the waiver of the buyer's fee. Additionally, 2% monthly interest is charged on accounts 30 days past due beginning from the sale date. If any awarded lots are still on hand in our office without a deposit 30 days after a sale, they will automatically be offered to the underbidders and the difference in price will be billed to the top bidder. Late payers will not receive future catalogs.
5. TERMS OF THIS SALE ARE STRICTLY CASH AND MUST BE PAID FOR PROMPTLY IN U.S. FUNDS. Payment should be made immediately upon receipt of the invoice. Payments from foreign accounts must be made in U.S. Dollars by International Check drawn on a U.S. bank or by wire transfer to the account of Joseph Lepczyk, c/o East Lansing State Bank, Account Number 04023353-01. As a convenience, invoices may be charged to VISA or MasterCard accounts provided the purchaser agrees to pay an additional 2½% handling charge. Please supply account number and expiration date.
6. POSTAGE, INSURANCE and/or handling fees are added to all shipments. All lots to be mailed to addresses not in the United States of America or its Territories, are charged an additional 1% insurance fee unless insurance is provided by the bidder. Overseas bidders must supply full detailed shipping instructions and agree to all terms as listed herein before shipment is made. We normally use registered air mail with return receipts on our overseas shipments.
7. Sales Tax is added to lots delivered in Michigan unless a valid resale number is presented.
8. TITLE to all lots remains with the cataloger until payment in full is received. The auctioneer reserves the right to accept or reject any or all bids at his discretion.

Tips and Strategies for Mail Bidders

Our reputation and typical high results at auction is mainly due to mail bidders who have become regular clients. We are always pleased to work closely with bidders in following their special instructions. Where possible, lots are purchased for mail bidders below their maximum bids. This occurs on about 20% of all lots. The competition is intense for desirable lots with many bids clustering near the same level. Estimates appearing in our catalogs are guides only. Popular and high grade material will frequently sell above estimates. Analyzing the results of our past sales, we have found that approximately 10% of the lots sell at top wholesale, 80% sell around full retail and the remaining 10% exceeds all our expectations.

The strategies and bidder techniques mentioned here are useful guidelines in bidding in any auction.

1. Always read the Terms of Sale and evaluate the auction houses. Not only are these different between auction houses but the terms may change from sale to sale for the same auction firm. Be aware of buyer's fees, Value Added Tax, handling and shipping fees along with the extent of guarantee, return privileges and late payment or storage charges.

2. As tie bids are received for many lots, one strategy is to bid early as preference is given to the earliest bid received. Preference on tie bids is also given to bidders who pay their accounts promptly and who do not make capricious returns.

3. Please sign your bid sheet and include your phone number. An unsigned bid sheet, may not have bids executed. If we feel a significant bidder error has been made, we will attempt to verify a bid by phone.

4. Bidding at a low level on many lots is a poor strategy due to the lack of success and also due to the time involved in preparing and processing such a bid sheet. Submitting numerous low bids is counter productive for everyone and does not establish your reputation as a credible bidder.

5. List your bids in numerical order instead of skipping around. This helps prevent bidder errors and is much easier for a clerk to enter your bids into the bid book. Always recheck your bid sheet.

6. Do not be afraid to bid over estimate if you feel a lot is worth it. Most tie bids occur on lower priced items. Bid the absolute maximum that any lot of interest is worth to you. Many lots are reduced significantly. Once a sale has been called, we can not increase your bid. We will always try to purchase the lot for you as inexpensively as possible.

7. If you want a percentage increase on any lot or lots, indicate this on your bid sheet. We much prefer that you do this on a lot by lot basis on a few lots rather than just checking an overall percentage increase box.

8. If you have a specific total limit on the amount of your purchase, we can generally follow your instructions even if you bid up to four times your total limit. We can enter your bids in the bid book or have one of our assistants represent you from the floor. This way you can submit more bids, increasing your chances of success without over extending your budget. This gives mail bidders one of the traditional advantages of floor bidders and also of participating successfully within their means.

9. If you are interested in purchasing just one lot of a type where several are offered, indicate special instructions to this effect. Just bracket those bids and mark "one only" or "alternate."

10. You may request photos or permission to view lots by mail. While there is a photo or shipping fee involved, this may answer specific questions you have about varieties or condition. The viewing privilege by mail is extended only to known clients in North America.

11. Become a subscriber. This will insure you receive catalogs by timely first class mail. Additionally, prices realized are sent to subscribers automatically. The PR's can be a useful guide to future bidding or purchases. It can also indicate areas where prices are declining or increasing and helps you evaluate your similar pieces in your own collection.

12. If you have any questions about lot descriptions, Terms of Sale, bidding procedures or estimates, call us at (517) 332-8581 between normal business hours 9 a.m. to 5 p.m. EST, Monday through Friday.

Consignment Information

Consignments are accepted for auction at any time for future sales. Our numismatic firm is one of the few pure auction houses in existence with most others being subsidiaries of retail businesses. Usually more than 100 consignors are represented in each sale from all continents.

Commissions are charged on a lot by lot basis which varies by the value and the type of material. The minimum fee is \$15 per lot or the following percentage rates, whichever is higher.

Fee Structure

Type of Material	Sale price \$250 or more per lot	Sale price less than \$250 per lot
Coins and Paper Money	15%	20%
Ancients, Tokens, and Medals	20%	25%
Literature	30%	

On extreme rarities and large collections, fees are negotiable.

Reserve Bids: If executed, our minimum fee is \$15 per lot or 5% of the knock down price but no more than \$100 per lot. This applies only if the reserve bids are submitted with the consignment. If we feel a lot will not sell at or above a reserve, we will reject this lot and return it to the consignor at no charge. In the case of reserves not submitted with consignments, they are treated as bids and the full commission rate is charged to the consignor if the reserve is the winning bid.

Settlement checks are issued 45 days after a sale on all lots with a completed sale.

We do reserve the right to recatalog, regrade and estimate lots according to our established standards.

Material should be shipped to us by registered mail. An acknowledgement of receipt of your shipment will be sent along with a confirmed auction contract. Additionally, material can be hand delivered personally by the consignor to our offices, sent by courier or hand delivered to George Beach, our convention agent. We generally have sales scheduled every two to three months.

While in our hands, consignment material is insured by Lloyd's of London for its full estimated value as published in our auction catalog.

We would be pleased to provide potential consignors our references if desired. Additional consignment information will be provided upon request containing our auction contract and listing our schedule.

At least 5000 copies of each of our catalogs will be mailed to subscribers and active clients. Of these, approximately 1000 catalogs will be sent overseas. Our total mailing list is now in excess of 50,000 names of actual auction bidders, individuals, firms and institutions who at one time or another requested a catalog.

We are mainly interested in consignments of auctionable material, both in terms of rarity and grade, since they realize the best return due to demand and popularity. We prefer listing lots with minimum values in excess of \$60 each without bulk lotting. Items of lesser value are normally grouped together. We are one of the few auction houses that will accept total collections for auctions.

We discourage advances although arrangements can be made for interest bearing advances at up to 25% of our estimated value of a consignment.

I would be pleased to discuss your potential consignment in confidence with you personally if you have any questions or concerns.

HOT AIR PAGE

Only one other sale of ours has had more lots than this April sale. We have had a few catalogs with more pages, photos, and more bulk lots.

This sale features some noteworthy items. The American Exonumia section has the final Buffalo Nickel plaster designs by James Earle Fraser. We also have one of the few electros for the seal of the Confederate States of America. Scattered throughout the sale are patterns, proofs and presentation pieces which normally are not available. The Canadian Tokens and German Notgeld sections have some very desirable items for the specialist collector.

Cataloging for our June sale is progressing to the point that the world medal and ancient section will be fully typeset by April 15th. Highlights of the sale feature an extensive collection of original Napoleonic medals, along with rare early medals from Germany, Great Britain and the United Dutch Provinces. We have a desirable ancient Roman coin collection for the June sale. Other areas are filling up fast. If you are interested in placing some of your material in the June INS auction, please contact us promptly. On consignments of \$50,000 or more, we will pay all your travel expenses if you personally bring it to our office. My staff and I would personally evaluate your material while you are still in East Lansing and take care of all the paper work to your satisfaction. Alternately, one of my employees can act as a courier to pick up material throughout North America. All types of worthwhile material will be included in our upcoming sale but we are especially looking for desirable U.S. lots for the June auction. We are fully insured by Lloyd's of London.

We have been offered a major U.S. collection for one of our upcoming auctions. We have made arrangements with John Hunter (former ANACS Director) to catalog this collection when it arrives. We would have Mr. Hunter evaluate all the other U.S. coin lots included in this sale. Possibly this will be in our June sale.

The terms of this sale have been slightly revised. It will not effect bidders who pay promptly but is designed to terminate the use of this auction house as a lending institution to dealers and collectors. A buyer's fee of 10% will be added to all invoices. It will be waived for all mail bidders on invoices paid in full within 30 days of the auction closing date. It will be waived on floor bidder accounts when paid in full on the day of the sale. Our commission structure has not changed. We candidly request that if necessary, successful bidders arrange commercial financing. We can recommend some financial institutions on accounts of \$2000 or more. Late paying accounts have forced us to institute this policy along with that of billing prior to delivery. On returned lots, we will make prompt refunds.

The indicators are that more auction houses will institute this policy. An amazing amount of information is exchanged between most auction houses. The time is ripe for the development of an organization of numismatic auction houses to encourage consistent procedures and policies for the typical problems auction houses encounter.

Some bidders and consignors have asked me if we have an overall minimum bid policy. We do to the extent that we will not knowingly sell a lot below a fair wholesale level or its current bullion value. Bids below this level have little chance of being successful as the retail level competition is intense for most single lots. Even bulk lots usually sell over our wholesale estimates. Consistently low and unsuccessful bidders are just dropped from our mailing list.

Our next Hot Air Page will in part deal with the problems of agent buyers for large companies, returning auction lots, coin investment overkill, when is a prices realized not a prices realized, and my possible declaration for candidacy for the ANA Board of Governors.
